you know and
trust !

BLATTATHOR[®] ULTRA

ULTRA EFFECTIVE

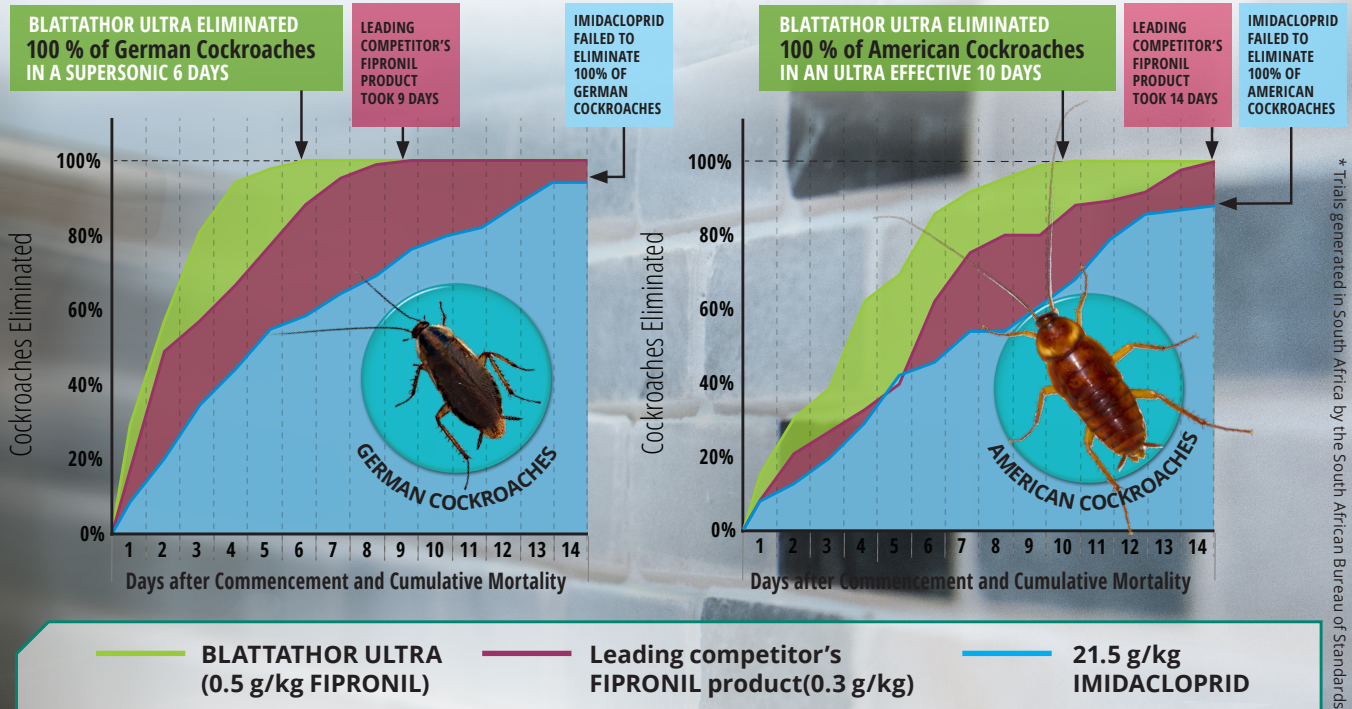

The Viral Feed Through Effect™
ensures supersonic
knockdown of cockroaches,
and with its high moisture
retention, it keeps
on killing.

ENSYSTEX[®]
LEADING INNOVATION IN PEST MANAGEMENT

BLATTATHOR[®] ULTRA

SUPERSONIC COCKROACH GEL BAIT

A clear winner with its ULTRA FAST kill and elimination of pest cockroaches, even nymphs - which means greater customer satisfaction and fewer call-backs!

* Trials generated in South Africa by the South African Bureau of Standards.

ULTRA PRECISION

For improved performance and cost savings use **BLATTATHOR ULTRA** with the **ACCUTHOR™ Precision Metered Gel Gun** from **ENSYSTEX**.

Crafted from polished stainless steel, this ensures precise targeting and fast placement of all your gel baits. Unlike any other gel gun on the market, ACCUTHOR sucks the gel out of the tube under negative pressure to guarantee dosing accuracy.

ENSYSTEX: LEADING INNOVATION

Through our cutting edge research and development laboratories we have created a range of gel cockroach baits to suit any job:

BLATTATHOR[®] ULTRA
 ULTRA fast, ULTRA effective gel cockroach bait
