DISCLAIMER

Ensyslex South Africa (Ensyslex) warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with Directions for Use under normal conditions of use. No warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of the product contrary to label instructions or under abnormal conditions.

PREVENTION

P102: Keep out of reach of children.

P262: Do not get in eyes, on skin, or on clothing.

P273: Avoid release to the environment.

RESPONSE

P352: Wash with plenty of soap and water.

P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P370+P378: Not combustible. Use extinguishing media suited to burning materials.

STORAGE

P410: Protect from sunlight.

P402+P404: Store in a dry place. Store in a closed container.

P403+P235: Store in a well-ventilated place. Keep cool.

DISPOSAL

P501: Dispose of small quantities and empty containers by wrapping with paper and putting in garbage. For larger quantities, if recycling or reclaiming is not possible, use a commercial waste disposal service.

WARNINGS

• Handle with care

• Store in the closed, original container in a dry, cool, well-ventilated area out of the direct sunlight and away from food and feedstuffs

• Keep out of reach of children, uninform persons, and animals

• Although this remedy has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climatic and storage conditions; compatibility with other substances not indicated on the label and the occurrence of resistance of the pest against the remedy concerned, as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animals or for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.

PRECAUTIONS

• Wash hands after handling.

• DO NOT contaminate streams, rivers or waterways with this product or used containers.

• Destroy empty container by perforation or flattening and do not use for any other purpose.

• Dispose in a responsible manner and according to local legislation.

• DO NOT burn empty containers.

• DO NOT apply to surfaces where food is handled or stored or allow product to directly come in contact with humans, pets, exposed food, food preparation areas or food utensils.

• Prevent contamination of food, feed, eating utensils and drinking water.

• Apply bait where it is inaccessible to children and animals.

• Return plastic tube to outer (carton) container after use.

DIRECTIONS FOR USE

Use only as directed.

ZENITHOR™ GEL COCKROACH BAIT is recommended for the control of cockroaches in commercial, industrial and residential premises including food handling and production facilities. **ZENITHOR™ GEL COCKROACH BAIT** is very stable; it does not harden or lose its attractiveness to cockroaches. Only reapply baits when the original bait has been consumed.

Treatment

• Inspect premises thoroughly and locate all cockroach harboursages.

• Place the **ZENITHOR™ GEL COCKROACH BAIT** bait spots as close as possible to cockroach harboursages.

• Place bait spots into cracks and crevices away from where they are likely to be removed by cleaning programmes.

• When placing baits remember that the label refers to the full surface area that the cockroaches are likely to traverse e.g. in a kitchen allow for the full surface area of each bench, cupboard etc.

• Good hygiene is essential in any pest management situation. Encourage the removal of other food materials.

• Do not use chemical sprays near baits.

• In areas of poor sanitation use more bait placements.

Dosage rate Apply as a 5 mm (0.1 g) diameter bait spot. Apply 2 bait spots per m² and up to 5 spots for heavy infestations.

Retreatment

In areas of high activity the bait may be consumed and further placements needed. Schedule a second inspection about a month after the initial treatment. Retreatments only need to be applied in areas where cockroaches remain or are likely to enter a premises. **ZENITHOR™ GEL COCKROACH BAIT** is very stable; it does not harden or lose its attractiveness to cockroaches. Only reapply baits when the original bait has been consumed.
